Attention all Bowlers

The T-ID Program is applicable at Club and District Level. ALL coaches will be instrumental in establishing the T-ID Program at grass roots level, because it is only by identifying players of high ability in each club and in each district that the National Academy will be able to identify and recognize players with skills and the ability to reach National & District Team Selection.

With the new EGB academy about to start soon, it is necessary to ask all coaches in the district if they would like to participate in the TID coaching program (see attached booklet). (on Northmead website under SA Bowls)

Would all coaches wishing to know more about the academy kindly contact me (numbers below).
